Re: *Amendment of Part 27 of the Commission's Rules to Govern the Operation of
Wireless Communications Services in the 2.3 GHz Band* (WT Docket No. 07-293)
EX PARTE PRESENTATION

Dear Ms. Dortch:

Sirius XM Radio Inc. ("Sirius XM") submits this letter in response to the ex parte presentation filed by the San Diego Gas & Electric Company ("SDG&E") on January 5, 2012.¹

In an ex parte letter filed on December 16, 2011, Sirius XM indicated that SDG&E, among other WCS licensees, had not acknowledged its obligation to "provide Sirius XM Radio, Inc. an inventory of [its] deployed infrastructure consistent with, and within 30 days of the effective date of, new Section 27.72(b)."² Although Sirius XM had not yet received a formal "inventory" of SDG&E's deployed WCS infrastructure after the rule's effective date, Sirius XM clarifies that unlike other WCS licensees, SDG&E has coordinated with Sirius XM regarding its WCS pilot system deployment. Specifically, Sirius XM received transmitter location and equipment information about SDG&E's proposed facilities in July 2011. In addition, after Sirius XM filed its ex parte letter, on December 23, 2011, SDG&E provided further information regarding a planned modification to one of its existing site locations, as well as additional transmitter location and equipment information.

Sirius XM appreciates SDG&E's continued efforts to cooperate with Sirius XM regarding its WCS band deployments.

Respectfully submitted,

/s/ James S. Blitz

James S. Blitz

Vice President, Regulatory Counsel

¹ Letter to FCC from SDG&E, WT Docket No. 07-293 (Jan. 5, 2012).
